BYRON'S LAST WORDS.

BY D. MARTIN.

Summer was in its glory. Night came down,
With a light step upon the virent earth.
Sepulchral silence reigned on every side,
And the winds—those heralders of storm,
Which curl the b llows on old ocean's brow,
In their low breathings were inaudible,—
When a gifted son of Genius sought his home,—
And threw himself upon a lowly couch,
And as his being's star went slowly down,
He thus communed in a low and faltering tone:

Oh! it is hard to die!
To leave this world of amaranthine green,
Whose glittering pageantr and flowery sheen,
Vie with the glorious sky!

But alas! the hand of Death
Has laid its icy grasp upon me now,
The cold sweat rests upon my feverish brow,
And shorter grows my breath!

Well be it so!
And I will pass away like light at even,
Unto the Houri's amethystine heaven,
Where all immortal go!

Yet I have drank,
Unto its very dregs the cup of Fame,
And won myself a green, undying name,
In Glory's rank!

And yet!—oh yet,
"Break but one seal for me unbroken!
"Speak but one word for me unspoken!
Before my sun is set!

Oh! for one drop,
Of the black waters of that stream sublime,
Which follows in the stormy tracks of Time
This breast to stop!

It may not be!
Yet I would pray that Memory might rest,
Like the fading beauty of the sunlit west,
In Oblivion's sea!

Thus did he commune—and when the god of day
Rose like a monarch from his sapphire throne,
His spirit had passed away like morning mist,
And winged its way unto that far-off land,
Where burns forever Eternity's bright star!

Advancement and Merit.—There is something abhorrent from every sentiment in man's breast to see as we too often do, imbecility advanced to high places by the mere accident of high birth. But how our hearts warm within us to behold the base born, if in Britain we may use the word, by virtue of their own irresistib• energies, taking precedence, rightful, and gladly-granted, of the blood of Kings! Yet we have heard it whispered, insinuated, surmised, spoken, vociferated, howled, and roared in a voice of small-beer-souring thunder, that Church and State, Army and Navy, are all officered by the influence of the back-stairs—that few or none but blockheads, by means of brass only, mount from the bar which they have disturbed to that bench which they disgrace; and that mankind intrust the cure of all diseases their flesh is heir to, to the exclusive care of every here and there a handful of old women. Whether overstocked or not, 'twould be hard to say, but all professions are full, from that of peer to that of beggar. To live, is the most many of us can do. Why then complain? Men should not complain when it is their duty as men to work. Silence need not be sullen—but better sullenness than all this outrageous outcry, as if words the winds scatter were to drop into the soil and grow up grain. Processions! is this a time for full-grown men in holiday shows to play the part of children? If they desire advancement, let them, like their betters, turn to and work. All men worth mentioning in this country belong to the working-classes. What seated Thurlow, and Wedderburne, and Scott, and Erskine, and Gifford, and Copley, and Brougham on the woolsack? Work. What made Wellington? For seven years war all over Spain, and finally, at Waterloo—work—bloody and glorious work.—*Morning Monologues.—Blackwood's Edinburgh Magazine.*

Comparative value of different kinds of firewood.—The table at large shows the weight of a cord of different woods, seasoned, the quantity of charcoal each will make, and other valuable information—founded on experiments. It assumes as a standard the shellbark hickory.

		lbs. in a cord.	Comp.	value.
1	Shellbark Hickory,	4469	100	$7.40
15	Buttonwood,	2391	52	3.85
14	Maple,	2668	54	4.00

19	White Pine,	1868	42	3.11
20	Lombardy Poplar,	1774	40	2.96

13	White Elm,	2592	58	4.29
5	Swamp Whortleberry,	3361	73	5.40

So much for the purchaser—and now a word to the seller.

It is estimated that a cord of wood contains when green 1443lbs. of water. So that a farmer who brings into market a cord of green wood, has no less load for his team, than another who should put on the top of his cord of dry White Oak, *three quarters of a cord* of seasoned pine, or one hogshead and two barrels of water. *Brown's Sylva Americana.*

STONE HOUSE!
IN LOWELL.

This elegant Mansion is now open for the reception of Boarders and Strangers. The "Stone House" needs no recommendation to those who have formerly visited it. It stands on the southerly bank of the Merrimack River, about a quarter of a mile from the business part of the town of Lowell, fronting on the main road leading from Lowell westward, and having a Piazza in rear which immediately overlooks "Pawtucket Falls," and commands a delightful and extensive prospect up and down the River.

No situation in this country combines greater advantages for a Summer residence, or resort of parties of pleasure. To many it will be some recommendation at this season, that excellent Salmon are taken in the Falls at this place. The admirers of mechanical art and power will not forget its vicinity in the most important and interesting of the Manufacturing towns in New England. The lovers of natural scenery will remember its elevated, cool and commanding site, perfectly secluded from the noise and business of the town.

The subscriber has fitted up and furnished the House at a liberal expense, and relying upon considerable experience in his business, and the utmost care and attention, hop s to be able to sustain its former reputation and meet the reasonable expectation of all who may be pleased to favor it with their patronage. GEORGE W. LARRABEE.

THE BOSTON MORNING POST.

MONDAY, JULY 14, 1834.

Riots in New York.—Further disturbances took place in New York, on Thursday evening. Dr. Cox's Church, at the corner of Laight and Varick streets, was attacked, and the windows broken; when, the police arriving, the mob were prevented from committing further depredation.

The multitude then proceeded to Dr. Cox's house, in Charlton near Prince street, who with his family were absent, probably apprehending an attack, and before they could force the doors, a squadron of horse arrived with a large body of watchmen, and the street was cleared; the mob then endeavored to force a passage in the rear from King street, but were repulsed, and a hot warfare with brickbats and stones was kept up, and several watchmen were injured; about one o'clock the mob dispersed, breaking the windows of Zion's Church, belonging to the Africans, as they passed.

The New York papers of Saturday morning contain the particulars of still further disturbances. The following is from the Gazette:

At half past eleven, [on Friday night,] we have the mortification to find that the disturbances are not checked. At 9 o'clock a large body of the rioters made an attack on the store of Arthur Tappan, in Hanover-Square, and broke some of the windows. The watch prevented further mischief by clearing the Square. In other quarters of the city we learn the riots are more serious in their nature. The church of the Rev. Mr. Ludlow, at the corner of Spring and Varick streets, has been broken open by the mob, and literally torn to pieces, the operators protecting themselves by barricading the streets with carts, planks, &c. Much damage has been done by another division of the rioters in Leonard-street, and the region of the Five Points, among the buildings inhabited by the blacks. Jenings, a black, in Chatham-street, has had his coat scouring establishment destroyed; the Anti-Slavery Office, corner of Nassau and Beekman, has suffered the demolition of the windows. Dr. Cox's church has been again attacked.

Half past one, we hear nothing new from the scene of action—all is quiet in the square.

The Mayor issued a Proclamation on Friday afternoon, calling upon the citizens to exert themselves to quell the rioters, and announcing that the city government were determined to exercise with energy the powers with which they were entrusted.

By the Steamboat Mail, which arrived last evening about five o'clock, we have the following additional information in regard to the proceedings of the mob on Friday night!

Messengers had been despatched to the City Hall, and a few minutes before eleven o'clock, the 27th regiment of National Guards, under the command of Col. Stevens, marched down Spring Street. On arriving there, they found the street baricaded on both sides of the church, and so complete was the barrier, that a considerable time elapsed before possession could be obtained. During this period the bell was kept ringing: the rope was finally cut by order of Col. Stevens. The first barrier was carried with little difficulty by the pioneer guard alone. The second was more formidable, forming a bastion, behind which was assembled a large body of rioters. A proposition was made to Col. S. to retreat, which he declined, and thereupon his detachment approached it, and soon carried that also, by no greater force than the pioneer guard, and a few soldiers detached from the column. They were soon joined by Justice Lowndes, at the head of a band of watchmen, and thus reinforced, thoroughly cleared Spring Street.

After leaving Spring Street, the mob proceeded to the residence of the Rev. Mr. Ludlow, in Thompson Street, whose family had retired. Here they broke in the windows and doors, and did all the injury they thought proper, and left the ground.—*Com. Adv.*

Five Points.—This was a scene of great riot and disturbance; the vengeance of the mob appeared to be directed entirely against the blacks; whenever a colored person appeared, it was a signal of combat, fight, and riot. Five houses of a bad character, were *principally* demolished; *many broken heads* was the result of the affray.

Another Riot in Centre Street; a Church and four Houses injured.—2 o'clock.—At 11 o'clock the mob to the number of some thousands, commenced their work of fiend-like destruction, by tearing down St. Philip's Episcopal Church in Centre Street, and occupied by a colored congregation. We stood by for two hours witnessing these outrages.

For more than two hours they had entire possession of that portion of the city, without any one to molest them. Hundreds of citizens stood by, anxious to interfere, but the odds were too fearful. It is next to impossible to describe the scene; hundreds of infuriated devils were shouting, hallooing, and busily employed in tearing out the doors and windows, the interior of the Church, and whatever they could lay their hands on, and throwing it into the street. After they had finished, they attacked one house adjoining, and three opposite, all occupied by colored people, the doors and windows of which they demolished. Their rage appeared to be declared against the blacks.

The Military were on duty, and the Mayor was at the Hall all night. It cannot be disguised, however, that the mob were complete masters of the city, and the city government was overawed, and for the time at an end.

Three o'clock.—The last account we have is, that the mob were on their way to Spring street, but it is not known whether any further violence was done. The mob appeared to act with great judgment and concert. We observed that every few minutes their messengers would arrive and announce to them whether the Watch were in force or not. They appeared to be in different detachments, and to appear in different parts of the city at once—*Daily Adv.*

At half past 12 o'clock on Saturday the Mayor issued a second Proclamation, calling out all the military of the city, and inviting the citizens generally to receive authority, and act as a part of the civil power. The Mayor announces that "*the laws must be maintained,*" and that the repetition of similar acts of violence must inevitably result in the destructiioh of life.

About sixty of the rioters have been arrested and committed to prison.

A serious riot occurred in Newark. (N. J.) on Friday evening. The Rev. Mr Weeks of the 4th Presbyterian Church, was about to preach a sermon in favor of immediate emancipation, and had ascended the pulpit, in company with a black man, for that purpose, when the populace entered the Church in great numbers, took the latter forcibly from the pulpit, conveyed him to the jail, threatening to tear it down if the jailor did not receive him—locked him up,—and then returned to the Church, broke the windows, tore down the pulpit and pews, and reduced the edifice to a shell.

The President left Washington on Thursday of last week, for the Hermitage, where he purposes to remain until October.

Col. Benton, the distinguished Senator from Missouri, left Philadelphia on Wednesday last, for the Virginia Springs, via Washington.

The Mormons.—A civil war is confidently expected between the citizens of Jackson county (Miss.) and the Mormons.

The Enquirer, printed at Liberty, of the 18th June says, that on the Monday preceding, a Committee on the part of the citizens of Jackson county, and one in behalf of the Mormon people, met at Liberty, to take into consideration the subject of compromising the difficulties which occurred last autumn. No compromise was effected. On the contrary, the excitement was such that the conference was adjourned. The proposition made to the Mormons, who were driven out of the county last autumn, and are about to re-enter it with additional numbers, in arms, is, to buy all the lands and improvements of the Mormons, at a valuation by disinterested arbitrators, to which valuation one hundred per cent. shall be added, to be paid within thirty days thereafter; the Mormons thereupon to leave the county, and not hereafter to attempt to enter it, individually or collectively. Or, the citizens of Jackson county to sell their lands to the Mormons on exactly reciprocal terms. To neither of these propositions would the Mormon Committee assent. The citizens of the county have declared that they will dispute every inch of ground, burn every blade of grass, and suffer their bones to bleach on their hills, rather than permit the Mormons to return.

Honors to Lafayette.—A numerous meeting of the Young Men of Boston, called by the Polish Standard Committee, was held in the Supreme Court Room, on Friday evening, H. F. Baker in the Chair, and J. McLellan Jr. and E. G. Austin, Secretaries. B. B. Thacher, Esq. offered a series of resolutions, providing for the appointment of a Committee of twenty-four, to be charged with the duty of providing for a public manifestation of esteem and gratitude for the exalted worth, and eminent services of the lamented Lafayette, and of causing a previous resolution to be carried into effect, providing for an eulogy on his character and memory. The Committee were subsequently instructed to consider the expediency of causing a Cenotaph to be erected to his memory at Mount Auburn, and the Eulogy to be pronounced at that place.

Humbug.—The New York Gazette publishes a statement which purports to have been written by a "young man of 18," in which the author confesses himself to be guilty of mutilating the figure head, and details the particulars of the whole proceeding. We have no doubt the *big wigs* who are in reality guilty of *paying for* this disgraceful proceeding, would be very glad to shift the odium of the transaction from themselves to a *young scratch*—but no doubt is entertained in this city as to the participation of certain big bugs in the *brave and honorable act* of attacking a wooden statute, and stealing the property of the nation, under cover of clouds and darkness. Let it be borne in mind that the wigs of Boston *encouraged and applauded the mutilation of the figure head of the frigate Constitution!*

Striking Coincidence.—During the same night in which the Boston Whigs decapitated the figure head of the Constitution, their equally worthy brethren in Burlington (Vt.) performed a similar act of bravery, by robbing a church bell of its clapper, to prevent its being used on the Fourth, in announcing a democratic celebration. *Par nobile fratrum.*

Prostration.—The heat of the last three days has been excessive. Each day the mercury has been up to 92, and yesterday to 93 in the shade.—*N. Y. Gaz.*

What would the editor of the Gazette have done with himself if he had been in this city on Tuesday last, when the Mercury was up to 99 and 100 in the shade, during a large portion of the day? He might have talked about "*prostration*" then, with some cause—but 93 is hardly a priming to our Boston weather.

We are happy to learn that the city authorities have granted Mr. Durant a place at the foot of the Common for the erection of a commodious amphitheatre, which is to be immediately completed, of sufficient size to accommodate several thousand spectators. Mr. D. has completed all his arrangements, and leaves for New York to day, to bring on the Ærostat.

Mail Robbery.—The Hartford (Ct.) and Albany Mail was stolen from the stage, in the former city, on Thursday night last. The portmanteau, and most of the letters were found the next morning about a mile and a half south of Hartford, on the road to Wethersfield. A reward of $50 has been offered for the apprehension of the robber.

The election for Governor of Louisiana commenced on Monday of last week. Messrs. Dawson and White are the prominent candidates. There seems to be little doubt but the former, who is the Democratic candidate, will be successful.

A good 'un.—The Fitchburg Republican says that since the decapitation of the figure head, the Boston wigs have *one more wooden head* than they had before.

The New York Thieves are a cunning set of fellows—they attend fires in firemen's dresses, and save all they can put in their hats and pockets, from the flames, for their own compensation.

The western part of Danbury, (Ct.) was recently visited by a violent tornado, whose force was so great as to uproot trees of the largest size, and demolish several buildings.

Five persons were recently drowned while crossing the Missouri river at Independence, by the sinking of their boat.

Edward H. Courtney, of the West Point Academy has been appointed Professor of Mathematics in the University of Pennsylvania.

The New York Star has a favorable notice of young Eaton, who is now playing at the Park Theatre, in that city.

Herr Cline, the celebrated rope dancer, has arrived in New York, from Liverpool.

At a district convention held at Haverhill, on the 4th inst. Hon. GAYTON P. OSGOOD was unanimously nominated for a re-election to Congress.

Mr. Robert Marsh, of Haverhill, was killed in that place by the falling of a frame for a new church, on Thursday last.

Mons. Saubert has re-opened his Theatre at Julian Hall, for four nights, and reduced the price of tickets to twenty-five cents.

POLICE COURT.

Eliza Hall, a white lady vs. *Mrs. Hill*, a creole, for an assault. Mrs. Hall testified "that Mr. Hill, the colored husband of the defendant, had engaged her to do his washing, and as she had four children to maintain, she thought 'twas best to do it; and just for that Mrs. Hill came to her in a rage, capsized her, and tore her cap, and threatened to pound her with an oakum beater." To this charge, Mrs. Hill replied, that one evening when her husband had gone, as she supposed to lecture, she thought that she'd jist run and see how Mrs. Hall and the children were; as she always had a kind of a liking for her; but when she got to the house, she found her husband and Mrs. Hall locked up together. She exclaimed, "Well this is pretty fair, I don't think, for you, a white woman, to be locked up with my black husband; and you, Mr. Hill, ought to be ashamed of yourself." To this her graceless mate replied.—"Is this the way you come smelling round arter me—I'll teach you the difference." Finding him intractable, she addressed herself to the lady—"Mrs Hall you have been married yourself, and ought to know what a wife's agonized feelings are under such circumstances, and you ought to know better than to lock yourself up with a married man." "I have had him locked up with me many a time, and hope to have him as many times more," was all the consolation she could get from the beguiler of her beloved, and stung by the contumacy of the reply, she planted her crow colored clinchers into the ringlets of the wanton wench. The defendant's statement was confirmed, by a colored gemman, who, in reference to his black brethren, who testified for the complainant,—said, "Our colored folks are so darnation foolish, if they can get a white woman to take any kind o' notice on em, that they will swear away a body's life, to keep in with her." He also thought, "that his honor ought to see to such creeteers that goes for to make disvorcements atween happy couples." The assault was clearly proved, as well as "the cause—the fatal cause," and the injured defendant was discharged by paying a fine of $1,00 without costs.

Assault on the Common.—A number of gentlemen were knocked down on the common, on Friday night, by a gang of sailors, four of whom were arrested by the watch, who were brought to the spot by the cries of "murder," uttered by one of the individuals assaulted. Their names were Timothy Nicholson, Henry Lundgreen, Owen M'Gaw, and Elbridge Simpson. The names of two of the persons injured have been ascertained; but it is desirable, for the purpose of making a salutary example of these rioters, that the others should appear before the Police Court, and recognize as witnesses for their appearance at the Municipal Court, before which the prisoners will be tried in August. Separate indictments will probably be found against them for each assault.

For the Boston Morning Post.

Mr. Editor,—I observe an article in the Washington Globe, on the subject of the mutilation of the Frigate Constitution; it concludes with the remark that "Commodore Elliott will probably allow the broken form of the Hero of New Orleans to remain on the bow of the ship, adding this inscription, 'mutilated by Bostonians.'" Now, I am strongly in favor of handing down this affair to all generations to come; and I am also very desirous that the real advocates of this deed of darkness should be known. I would therefore offer an amendment to the inscription, viz. by striking out the word "Bostonians," and adding instead, "the Wigs of Boston." Of this they could not complain, for they have, almost to a man, sanctioned the act. L.

Mockery.—The finance committee of the senate, consisting of Messrs. Webster, Ewing, Tyler and Mangum, have been constituted a committee of investigation, to sit during the recess of congress, for the purpose of examining the affairs of the U. S. Bank, and reporting at the next session. Four men, devoted, to the interest of the bank, who have wasted the money of the people by protracting the last session to favor that institution, are now appointed a committee to examine into its condition. What mockery of legislation is this! The late committee from the House of Representatives, consisting of men of both political parties, were refused admittanse to the bank, were refused the books for examination, and were sent back to Washington, to report that the bank did not acknowledge the right of the House to institute the examination to the extent directed. But now these four men, these sticklers for the bank, will be received with welcome and will attempt to whitewash that institution, by a favorable report at the next session. Was ever such a miserable subterfuge to conceal corruption before attempted!—*Poughkeepsee Telegraph.*

The atrocious outrage at Boston, the mutilation and stealing of public property from the Navy Yard, has awakened a deep and angry sensation, in all whose judgment is not destroyed by political madness. Attention is turned to the Municipal authorities of Boston and Charlestown. If they do not bestir themselves to bring the criminal to justice, and offer a sufficient reward for his apprehension, they can be looked upon in no other light than as accessories to the mutilation and robbery. Public property cannot be considered safe, when such an act is allowed to pass unpunished, and without even an attempt to obtain the punishment of the offender. If the authorities, therefore, do not exert themselves, it will be the imperative duty of the Secretary of the Navy to take an effectual method of preserving national property from destruction, by removing it elsewhere, leaving the Bostonians to comfort themselves as they may.—*Pennsylvanian.*

Post Office Report.—Never, perhaps, has there before been laid before Congress a report containing so many notorious falsehoods as are contained in the late report of the majority of the Post office committee, with regard to the condition and management of that Department. The number of instances in which they have been proved to have made the most gross and palpable misrepresentations, has been such, and they have crowded so thick upon us, that we have had neither time nor room to notice them. The committee who made it have fairly earned the name of the mendacious committee, and the result of their labours should hereafter, by way of designation, be called the mendacious report.—*Baltimore Repub.*

It appears a clergyman, in Boston, on the 4th of July, when offering up thanks and praises to the Most High, did NOT abuse our venerable and patriotic President—but possibly might have prayed for him—(for the Boston editors differ on the subject) but because he did not abuse the President from the sacred desk, he has given mortal offence to the federal wigs. Is it the intention of that party again to enlist the clergy in their cause, as in 1800, during the "reign of terror?"—*Prov. Rep. Her.*

John Holmes delivered an oration at China on the 4th. Preparations were made for a dinner for 600, as we understand, and but about 150 sat down, and our informant says, that as many more would have partaken of the dinner, had Holmes conducted himself anywhere within the bounds of decency.—*Belfast (Me.) Journal.*

The new *Penal Code* went into operation in the State of Georgia, on the 1st instant.

Natchitoches, (Louisiana) June 14.—We understand from good authority, that the Cherokees and some straggling Choctaws, have determined to wage war against the Comanches, and that the chiefs of the former had sent for Colonels Almonta and Beane, to consult with them as to its expediency. The ground of complaint is, that during the past season, the Comanches have pilfered and destroyed all the preperty of the Cherokees they met with, and have otherwise annoyed them by holding their travellers in temporary captivity. We are also informed, by a gentleman who passed through this place from our frontier, that a party of Pawnees had murdered a Mr. Martin and son, residents of the Arkansas Territory, while encamped in the customary range of the buffalo.

Counterfeiters arrested in St. Francis County, Arkansas Territory.—Three individuals, calling themselves Enoch Mounts, Jonathan McPeters, and Allen Reed, have been arrested, supposed to be connected with a gang of counterfeiters, who have been deluging the territory with spurious notes. All found on them were mostly of the denomination of 10s. and 20s. on the United States Bank. Mounts made an attempt to escape while on his way to prison, but was fired upon, and about fifty small shot lodged in his back. He was carried to prison, where he was attended by a surgeon, and lodged for the night. In the morning it was discovered he had made his escape, but was pursued about twelve miles, and overtaken.—*N. Y. Star.*

We perceive, by a decree in the Rio Packet, of the 21st May, that the Regency in the name of the Emperor Don Pedro II. have granted to Chas. Grace and Wm. G. Gover the exclusive privilege of lighting the city and its suburbs with Gas for the term of twenty years from the date of the decree. The Company will be composed of National and Foreign Capitalists; they will commence the illumination within eighteen months, and continue augmenting it progressively so that at the expiration of twenty-four months there shall be at least seven hundred and fifty lamps lighted, and another equal number at the end of thirty-six months.—*Balt. Gaz.*

Gold Mining.—We learned yesterday, for the first time, that a company, most of the members of which are citizens of Philadelphia, was incorporated by the legislature of Virginia, at its last session, under the title of the "*Union Gold Mining Company.*"—The mine, we understand, is in Fauquier County. It appears from an advertisement in this morning's SENTINEL, that the operations of the Company have been so successful, that in the short period of three or four months, they have been enabled, besides paying the necessary expenses, and providing against contingencies, to declare a dividend at the rate of twelve per cent. per annum.—*Philad. Centinel.*

American Feeling.—The mob that attacked the house of Mr Lewis Tappan, on Wednesday night, were for a moment arrested in their work of destruction upon the furniture by the discovery, that they were about committing to the flames the "likeness of Washington." A general cry was sent forth—"it is *Washington*—in the name of God don't burn Washington." The painting was therenpon borne off in triumph by the populace, and safely deposited in a neighboring house.—*N. Y. Com.*

Mr. Theodore Sedgwick, a passenger in the North America, is the bearer of dispatches from Mr. Livingston, our Minister to France, to this government. Among his dispatches, are the original papers containing a list of American ships illegally captured, which, after years of delay, have been obtained from the French government. The same government has consented to give us the decisions by which the condemnation of those vessels were made.—*N. Y. Star.*

A Man of Business.—A man calling his name Wm. B. Shaw came into this village about three months since—went to cutting stone—formed an acquaintance with a respectable young woman to whom after a tedious courtship of a few days he got married, and in just one month after the hymenial knot was tied, hired a horse and wagon in which he run off riding, and left his fair one to mourn the loss of a notorious scoundrel.—*Fitchburg Repub.*

The Mercantile Journal states that a man by the name of Powers, while standing on the steps in front of the Court house, on Saturday forenoon last, was suddenly deprived of sensation by a fit, and fell backwards on the lower step, striking his head with such violence, that the blood gushed from his mouth and ears. He is said to be dangerously wounded.

A Russian nobleman, lately deceased, has left a legacy of 50,000 rubles, to increase at compound interest till the year 1925, when the accumulated capital is to be given as a prize for the best history in Russian of the reign of the Emperor Alexander. The capital, it is calculated, will then amount to nearly 2,000,000 of rubles.

At a meeting of the United Benevolent Society of Journeymen Tailors in the City of Boston, July 1st, 1834.

Resolved, That the above named Society do agree to form a Union with all Trades in this city, so that the Journeymen and Employers form a seperate body, and that each body send their own Representatives to the General Convention of the Trades' Union; for we are informed that a great number of the Employers represent their Journeymen, which we are of an opinion that they could not do fairly. On Thursday, at 9 o'clock, at office,
A general assortment of foreign and domestic piece goods

A. WATKINS, *THOMSONIAN BOTANIC PHYSICIAN*—*Infirmary, Harvard street, (opposite 499 Washington street,) Boston*—Has been acquainted with and possessed of a right to use Dr. Samuel Thomson's Patent Vegetable Medicine, for the last 21 years, and administered them in Europe, and South and North America, (including the West India Islands,) and with as much success as any other can, (with truth,) boast of. In the nine months' practice he has had at the Harvard street Infirmary, *he has not had the misfortune to lose* ONE *patient*, although many of them had been for years in the hands of the members of the Medical Faculty, and some of them abandoned to their (supposed) hopeless tate. As he is so well known in Boston, it is unnecessary to enter very largely into a detail of success. The following are a few o his patients:—

Stephen Gore, (inquire at Thomas Holland's Beach street, Boston,) totally blind for about 5 months, one eye, nearly destroyed, general debility, legs swollen and lame—appeared completely charged with poisons. General health restored; eye sight good—could see to read (without glasses) in 5 courses, &c. better than he could for seven years previous.

Mr. Parker, now assistant at the Infirmary, rheumatism and dyspepsia, cured in 3 courses.

Francis Kemlo, 153 Court street, Boston, severe indigestion and spasms, cured in four courses, &c.

Thomas Pierson, of Roxbury, and keeps a stall in the new Market, Boston,) erysipelas in the face and one eye; leg very much swollen and ulcerated from the knee to the ancle for the last 25 years—attended by many physicians; nearly cured in 5 weeks.

Miss Charlotte Pierson, do. white swelling, with loss of appetite, &c. under medical treatment 5 months, and unable to walk—cured in 3 weeks.

Jesse Brown, baker, of Roxbury, rheumatic and retrocedent gout; stomach, knees, ancles and toes greatly affected; has been confined to bed nine weeks—cured in 4 courses, &c.

Miss A. Brown, his daughter, scrofula or king's evil, cured with 4 courses, &c.

J. D. Smith, of Lexington, dyspepsia, of several years continuance—cured in 3 courses. &c.

Samuel Hawes, of Weymouth, rheumatism in the back, strictures in the urinary passage, general emaciation, &c.—cured in 6 courses, &c.

S. Smith, calico printer, of Lynn, pain in the stomach and back, and strictures across the breast, &c.—cured in 2 courses.

—— Toll, of Shepard street, Lynn, fits and severe cholic, from indigestion—cured in 2 days!

Benj. Morgan, of Salem, cancerous or scorbutic humors; hand ulcerated, debility and loss of flesh; piles severe, and unable to dress or undress himself for a considerable time—cured with 5 courses, &c.

Joseph Kerrier, of Salem, rheumatism in his shoulders and arms—cured in 2 courses, &c.

Sarah Town, of Andover, indigestion, severe pains throughout the system, and piles—cured with 3 courses, &c.

Mrs Lucinda Kerr, Sea street, Boston, salt rheum; top of the head one entire scab—cured in 4 courses, &c.

A. W. cannot be at the expense to enumerate more cases, at present. He has not named cases of fevers, they are almost too ephemeral in the hands of a physician acquainted with his duty—the *ignoramus* or continued fever, is unknown in the practice of such. Delicacy will not not permit the naming of several diseases, which he has treated with universal success. In almost all the cases of diseases which have been treated by him, he has been under the necessity to expel not only the disease, but the *poisons* which produced and continued them—and all with INNOCENT and HARMLESS SIMPLES.

This practice induces him to believe he is not too bold in saying, the Thomsonian treatment removes both disease and the poisons of the Medical Faculty from the human system, when resorted to in seasonable time.

For Medicine, Family Rights to use the same, Robinson's Lectures, &c. at the usual prices, apply as above, of

ANDREW WATKINS,
Agent for Dr. SAM'L THOMSON.

BLACKING.—Liquid, Paste, and Sponge—also a leather preservative, comprising all the kinds now in use, are manufactured and for sale at the Blacking Establishment, head of the Western Avenue.

KNAPP'S JAPAN LIQUID BLACKING, three sizes in stone jugs. The proprietor has the pleasure to inform the public that from long experience in the business, he has been able to make great improvements in the article, so much so, it is believed, no other kind approaches near it in quality, with the exception of Day & Martin's, which by many is not considered so good. A small quantity, made expressly for retailing, now on hand, and offered to the public on reasonable terms—warranted to give the most entire satisfaction. The smallest orders gratefully received.

KNAPP'S CONDENSED OIL PASTE BLACKING, is offered as above, by the single box, dozen, or cask. This article is pronounced by the most competent and disinterested judges to be superior to any other kind now known in this market, and warranted to give satisfaction, or money refunded to the purchaser. It is prepared with *oil*, and its shining qualities are believed to be unequalled. It will be sold on liberal terms, and to wholesale dealers in the article, the discount will be satisfactory.

KNAPP'S JAPAN SPONGE BLACKING, for sale as above, by the barrel, gallon, or dozen. It is sufficient to say of this article, it sustains the highest reputation of any article of the kind manufactured in this part of the country, and it is the intention of the manufacturer to spare no pains or expense in the preparation of the same.

KNAPP'S LEATHER PRESERVATIVE, for sale as above, (indispensable to every man who regards his health or economy.) First, it renders the leather impervious to water, also makes it soft and pliable, and of course prevents it from cracking which is the first symptom of decay in leather. It is believed that one pair of boots with this article applied properly, will wear as long as two with nothing of the kind used on them; and for the preservation of leather, should be used in summer as well as winter. july 22

IRON SAFES.—S. A. & W. G. PIERCE, Agents for selling Gaylor's Patent Double Fire Proof Wrought Iron Chests and Safes, 370 Washington-street, have now on hand a large assortment, comprising all the sizes and kinds which are calculated for the use of Banks, Insurance Offices, *Town Records, Merchants, and others.*

The above Chests are double throughout in all their parts, with double doors, each secured with Chubb's Patent Detector Locks, which *cannot be picked*; and the Chests are as completely Fire Proof as any vault or chest can be made. Proof of which can be seen by those who will take the trouble to call at the Agent's Store and examine a Double Chest which has passed through a very severe fire, and preserved a valuable lot of books and papers, belonging to John S. Abbott, Esq., whose name is attached to the following certificate:

"This is to certify, that one of the above described Double Safes, which I purchased of the Messrs. S. A. & W. G. Pierce was in my office in this town when the office was burned on the 2d day of November last—the building was of two stories, wooden, and large. The Safe, weighing 700 lbs. fell from the second story into the cellar, and was exposed to an intense heat for nearly three hours. It was for a long time literally *red hot*. It contained all the account books, notes, and court-papers, that were in my office; and no paper was in the least degree burnt or rendered illegible. JOHN S. ABBOTT.

Thomaston, January 8th, 1834."

The above Chest, and some of the papers which were in it at the time of the fire, are now at the Agents' store, corner of Essex and Washington streets, and any individual or corporation who are about purchasing Iron Safes for the protection of their books and papers, will find it for their advantage to call and examine them, and they will be perfectly satisfied that Gaylor's Double Safes are what they are represented to be—FIRE PROOF! and they will be still further satisfied that none other but the Double Safe would stand a severe fire.

Gaylor's Double Safes are a Patent article, and can only be legally purchased in this city of S. A. & W. G. PIERCE, who are his authorized Agents. tf—jan 31

MARSHALL'S FLUID EXTRACT OF SARSAPARILLA, for the cure of Obstinate Eruptions of the Skin, Pimples or Pustules on the Face, Biles which arise from an impure habit of body, Scaly Eruptions, Pains in the bones, Chronic Rheumatism, Tetter, Scrofula or King's Evil, White Swellings, Syphilitic Symptons, and all disorders arising from an impure state of the blood, produced either by a long residence in a hot and unhealthy climate, the injudicious use of mercury, &c.

It has been a desideratum with Physicians and patients, to obtain *an active preparation of Sarsaparilla* in a convenient and portable form. Since Dr. Hancock's publication in the London Medico Botanical Transactions, and Mr. Hodgson's recent Paper in the Journal of the Philadelphia College of Pharmacy—denying the efficacy, and asserting the inertness of any *Decoctions, Syrups, or Compound Fluid Extracts* made by long and continued boiling; I have been induced to prepare a Concentrated Compound Syrup of Sarsaparilla, by a process peculiar to myself: and, aided by a powerful hydraulic press, have succeeded in obtaining a more efficient and active preparation than has ever heretofore been manufactured.

This very convenient and active Syrup is now with confidence offered to the Medical Profession and the public, as possessing in an eminent degree all the active properties of the Sarsaparilla in its most concentrated form.

One pint of the Syrup thus prepared contains the active principle of two pounds of Sarsaparilla. One fluid ounce is equal in strength to one quart of the decoction of the London Pharmacopæia or the Lisbon Diet Drink.

This article possesses an agreeable and pleasant flavor—and the most delicate and fastidious stomach will bear it conveniently.

COMPOUND CHLORINE TOOTH WASH, for Cleansing and Preserving the Teeth and Gums, and Cleansing the Mouth.

THE CHLORINE TOOTH WASH effectually cleanses the Teeth, and will answer the purposes of the best dentifrice. It contains no acid, or any ingredient which can in any case be injurious. It will also be found to keep the brush itself free from all impurities.

The Compound Chlorine Tooth Wash has the further advantage of cleansing the mouth also—and of removing whatever is offensive in the breath. It hardens the gums and is a valuable remedy for canker or soreness of the mouth. It may also be used with the greatest advantage as a gargle for sore throat. In fine, it preserves the teeth and mouth in all respects in a clean and healthy condition. It is agreeable to the taste. Gentlemen who are in the habit of using tobacco, will find that the tooth wash will speedily remove all the effects of it from the mouth.

That the public may rest assured of the very salutary effects of this composition, the following recommendations from gentlemen of the highest respectability are submitted.

From J. W. Webster, M. D. Erving Professor of Chemistry in Harvard University.

Harvard University, Cambridge, March 14, 1831.

Messrs. Lowe & Reed. Gentlemen—I have examined the Compound Chlorine Tooth Wash received from you, and have no hesitation in stating my belief that it will answer the purpose for which you have compounded it. I have discovered in it no ingredient which can prove injurious to the teeth.

Yours, &c. J. W. WEBSTER.

From Sylvanus Plympton, M D.

Messrs. Lowe & Reed. Gentlemen—I have frequently administered your Compound Chlorine Tooth Wash in various affections of the mouth and throat—and relief has been immediate and permanent. In a *neuralgic* affection of the face and head, arising from a depraved state of the gums and defective teeth, which resisted many powerful, approved medicines, this *Wash* acted like a charm. I hesitate not to give it my entire approbation for the purposes for which it was made, and consider it one of the most safe, pleasant, and effectual articles of the kind ever offered to the public.

I am yours, &c. S PLYMPTON.

Cambridge, Dec. 9, 1831.

From Mr. A. A. Hayes, Operative Chemist and Superintendent of the Roxbury Chemical Works.

Messrs. Lowe & Reed. Gentlemen—Having examined the bottle of Compound Chlorine Tooth Wash you gave me, and become acquainted with its composition, it affords me pleasure to express my belief, that it well deserves the high reputation it has acquired.—It does not contain any substance in solution or suspension, which can either chemically or mechanically injure the teeth, and observation and experience confirm the opinion that its effects on the mouth are salutary and very agreeable. With respect, A. A. HAYES.

DR. WARNER'S PURIFYING VEGETABLE POWDERS, Or FAMILY BITTERS—yielding its strength to Wine or water.

As a security against counterfeits, the label will be signed by the wholesale agent, PARKER BARNES. Likewise the steel plate will be observed, as there is a spurious article, which has been offered to the public.

In the spring of the year, every one is troubled more or less with a propensity to sleep, and by the use of this corrective it can be obviated entirely. For purifying and eradicating all kinds of humors from the blood, even if they appear externally in the face, or any part of the body, it is much better and my more efficacious than any external application; in fact I seldom knew it to fail proving effectual. The patient will find it operates more in the blood than any other preparation they ever referred to; it is far better than salts, sulphur, cream tarter, or any other preparation of this kind, for when the blood is once purified with this corrective, it remains in an even temperature through the summer months. For a foul stomach, jaundice, general debility, weakness of limbs, want of appetite, billious and liver complaints, headach, stupor, &c. For the catarrh, which is generally occasioned by the impure state of the blood, there is nothing extant that has proved so efficacious as this purifying corrective. For all the above complaints it is seldom known to fail in proving an effectual remedy.

It is really worth the public attention, as every one is aware of the unpleasant, dull, heavy feeling, which the spring of the year produces; and by the use of this corrective, it can be obviated entirely. Every one who makes use of the above preparation, will be astonished at the mild and gentle effect it has on the blood.

CERTIFICATES.

This is to certify, that I have been troubled in the spring and summer seasons with a dull and stupid feeling, which very much troubled me while about my business, and by taking some of Warner's Purifying Powders, I have found it a perfect remedy, and with confidence recommend it to others who may be similarly affected. ELIAS PIKE.

Boston, April 16th, 1832.

Joseph Moore, of Boston, certifies that he has taken Warner's Family Corrective, or Purifying Powder for purifying the blood, and curing of jaundice, and likewise removing the propensity to sleep, and has found it an effectual remedy.

April 1st, 1832.

I hereby certify that I have taken Warner's Vegetable Purifying Powders for the cure of the jaundice; likewise for purifying the blood, and removing the propensity for sleep which I am always troubled with in the spring of the year. From the benefit which I have received for the above complaints, I cordially recommend it to all that may be similarly affected.

JOHN B. FINN.

Feeling grateful for the benefit which I have received from taking Dr Warner's Vegetable Bitters, for the cure of the jaundice, weakness of the limbs, want of appetite, indigestion, &c. do recommend it as a safe and efficacious remedy for the above complaints. P. COFFIN.

Boston, March 1, 1833.

Other reference to its efficacy may be had by calling on the agent. To be had at wholesale of my sole agent in this city, PARKER BARNES, No 424 Washington street, and retailed by all the principal Druggists, in Boston and vicinity. a116mo

INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS. ANDERSON'S VEGETABLE ELIXIR, *for Dyspepsia or Indigestion, Jaundice and Bilious Complaints; weakness of the Stomach and Bowels, and consequent loss of appetite; nervous complaints, headach, sour stomach, flatulence and habitual costiveness.*

This medicine is composed entirely of vegetable substances, is perfectly safe in its operation, and may be given to children or persons of the most delicate habit, without the least risk of inconvenience.

The uniform success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, affords, next to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from indigestion for three years. 'During this time, I suffered very much from mental depression, constant pain in the head and breast, and side, sharp shooting pains over almost the whole system—the food that I ate *seemed* to pass into my lungs and there remain, giving me great pain attended with a strong degree of heat. At times, I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of any thing like indigestion or pressure on the stomach, to take about a table spoonful of it, which, in the course of a few hours, completely restores me. It has had with me a very wonderful effect, in strengthening the stomach and invigorating the whole system, and judging by my own case, I consider it in all diseases connected with the digestive organs, to be a very valuable medicine.

It has been found singularly efficacious in cases of the most obstinate headache.

It is put up in large bottles containing a pound and a half: and sold at *seventy-five cents* each, by Jonathan P. Hall, Jr., No. 1, Union street, John P. Whitwell, Milk street, John I. Brown, near Boylston Market, Erastus S. Holden, near the Western Avenue, Richard A. Newell, Summer street, Boston; Samuel Kidder & Co. Charlestown; E. G. Lemon, Roxbury.

PATENT CORK FOR COLLARS AND SADDLES.—The American Cork Company offer for sale, ground or grated Cork for stuffing Horse Collars and Saddles. The utility of the article has been fully tested, the past year, in a great number of cases where horses' breasts had become sore and inflamed by the use of the ordinary collars.

It has been proved beyond a doubt, to surpass every other substance that has yet been known or used for that purpose.—The fact that it will not become matted, and is a non-conductor of heat, must convince every person of its value. But one farther advantage is, these Collars fit the breast of a horse immediately on their application, which is not the case with any other material. A certificate as to the utility of the article, is subjoined.

"We the subscribers, having made or used the Cork Horse Collars, made from ground or grated Cork, are fully satisfied that they surpass collars made of hair, wool, or any other substance whatever that we have been acquainted with, for the following reasons:—First, the elasticity is sufficient; secondly, it being a non-conductor of heat, does not heat the breast as all other substances do; thirdly, it fits itself to any horse's breast immediately on its application; and fourthly, it has cured every horse's breast we have applied it to, or known it to be done."

Boston, Sept. 3d, 1833.

Signed, PETER STEVENS, Stage Proprietor.
HENRY A. HOVEY, Manufacturer.
E. W. LAWSON, Stage Agent.
O. B. KNAPP, Collar Maker.

The article is manufactured at the Company's Warehouse, *Head of the Western Avenue, Boston*; put up in sacks of 10,-15, and 20 lbs. each, and sold by DAVID LEWIS, dealer in Saddlery Hardware, No. 38 Kilby-st. HENRY KNAPP, General Agent for the United States. eopitf—mar 25

Extract of a letter from Dr. Waterhouse, dated August 12th, 1833—

"I have examined andtried your Chair Cushions, filled with grated cork, and am pleased with their neatness, and freedom from any thing like filth. Most people would, I believe, give the preference to those filled with rasped cork. Certificates of three gentlemen who witnessed the exhibition in Boston harbor—

We, the undersigned, do hereby certify, that we were present at the experiment made by Mr Knapp, on Saturday, the 10th inst., with a Mattrass, filled with grated cork, to sustain a person on the water, from the Castle to Long wharf, which proved successfull to our utmost satisfaction. We are happy to state that we are perfectly satisfied as it respects its property in securing persons from shipwreck as intended. We do therefore recommend their use, particularly to mariners, and venture to say, that their introduction on board of vessels, will prove highly important and valuable hereafter.

POSITIVE, OR NO PAY.—*Mrs. Hill's Cough Drops, or Vegetable Health Restorative.*—Prepared entirely from Vegetables.

More than forty years have now elapsed since the receipt was given me by my uncle, a celebrated Physician, at a time that I was troubled with a very bad cough and cold. After taking one dose, I found immediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerous instances of the wonderful efficacy of these drops on different people, has induced me to put them up in Phials, with directions, under the impression it would be a public benefit. And as that is my sole aim—and to convince the public that is all, and as a sure guarantee against quackery and deception, I authorise my agents to return the money to all those that do not get relief by their returning the bottle and directions. The relief and absolute cure, particularly of those numerous and complicated disorders arising from neglected colds, is amply attested by the acknowledged approbation of those who are now restored to perfect health, as well as many in the decline of life who frankly acknowledge having received great relief from the use of them in the following diseases, viz:—Coughs, Colds, Asthma, Spitting of Blood, Hooping Cough, Difficulty of Breathing, Influenza, Quinsea, Phthisic, Croup, and all disorders arising from colds. Price 37½ cents per bottle.

INDESTRUCTIBLE BLACK WRITING INK.—It is known that Chlorine, (muriatic acid diluted with water) when passed with a feather of a quill over writing made with common Ink will destroy it, and the same place can be again written on, and the date, sum, or condition of any writing or agreement be altered. This valuable Ink has been tested chemically, and is found to be indestructible by the action of any known acids. Any chemical agent, which removes this ink must also remove the paper upon which it is written. This property, rendering it inaccessible to the arts of forgers and counterfeiters, is an extremely valuable one, and one which addresses itself to every Banking and other Corporations, and to every citizen of the Mercantile and Professional community. It is now offered for the public use; and the proprietor only asks a fair trial of its merits.

This ink is now used in the Office of the Government of the State of Maine by many eminent Lawyers and Public Officers, and by most of the Merchants of Portland, who are desirous to have their accounts unalterable. This Ink has also been highly approved of by all the Professors of Bowdoin College, and the certificate of Professor Cleaveland, a distinguished chemist, is hereunto annexed:

'Brunswick, June 6, 1834.

'It is hereby certified, that Mons. Le Bron has requested me to examine some ink of his manufacture, with reference to its power of resisting the action of chemical agents. I found its power of resisting chlorine and solution of Potassa, decidedly superior to any record ink with which I am acquainted.

PURE BEAR'S OIL may be had by the groce, dozen or single bottle, of A. BOYDEN, Hancock-st.

As in all cases, so especially in this, Venders, if they wish to secure the patronage of the public, should be extremely cautious not to sell an article for the Hair which tends to counteract rather than assist nature.

The virtues of *Bear's Oil* have been too long tested to need any eulogium; and at this time no one can doubt of its being the very best article for strengthening and promoting the growth of the Hair. An honest prejudice against the use of Bear's Oil has long existed, arising from two causes—the improper method of purifying it, and the imposition upon the public of a spurious article. That this prejudice may be wholly removed, this article now offered is warranted the pure Oil, rendered more pleasant by the addition of a little perfume—and the possibility of its injuring the Hair is entirely precluded by the manner in which it has been purified. To prevent fraud, the genuine is enclosed in two wrappers, the inside one being signed *Arnold Boyden.* aug 15
